## New incumbents advised at KCCI's 57th AGM

## Strive for revalidation of TOO-2007: Teli

KARACHI: Chairman Businessmen Group (BMG) and Former Karachi President Chamber Sirai Kassam Teli has advised the newly elected Office Bearers of KCCI to focus on convincing the government to revalidate Trade Organizations Ordinance (TOO) 2007 and implement the same in letter and spirit as this was the only Ordinance which had been endorsed by the entire Business and Industrial community of the country, says a Press release.

Speaking at the 57th Annual General Meeting (AGM) of Karachi Chamber of Commerce and Industry (KCCI), Chairman BMG stated that in order to unshackle FPCCI from the clutches of Qabza Group and send these unscrupulous elements back to their homes, it was indispensable to abolish the existing TOO-2013 and revalidate TOO-2007 otherwise the genuine representatives of the business and industrial community would remain deprived and continue to protest against FPCCI.

Vice Chairmen BMG & Former Presidents KCCI Tahir Khaliq, Zubair Motiwala, Haroon Farooki and Anjum Nisar, Newly elected Office Bearers Junaid Esmail Makda (President), Khurram Shehzad (Senior Vice

President) and Asif Sheikh Javaid (Vice President) along with retiring Office Bearers Muffasar Atta (Ex-President), Malik Abdul Basit Abdul Razzak (Ex-SVP), Rehan Hanif (Ex-VP), Former Presidents KCCI AO Khalil, Haroon Bari, Shamim Ahmed Firpo, KCCI Managing Committee members and a large number of General Body Members attended the AGM.

Siraj Teli advised the newly elected Office Bearers to compile a detailed narration about TOO and submit it to Advisor to Prime Minister Abdul Razzak Dawood with a request to immedi-

ately abolish TOO-2013 and revalidate TOO-2007 in order to completely wipeout all wrongdoings done in between 2007 and 2013. "If necessary, any minor changes in TOO-2007 should only be made after consultation with the entire business and industrial community of the country as it was endorsed by them", he added, and was fairly optimistic that Razzak Dawood would better understand the loopholes in TOO-2013 and take steps to deal with this issue.

He said, "We struggled really hard to get Trade Organizations Ordinance 1961 abolished during

See # 1 Page 7

#### No #1 Continued from page 3

Musharraf's regime in 2007 when Humayun Ak:htar Khan was the Commerce Minister. At that point in time, TOO-2007 was formulated which was endorsed by all Trade Associations, Chambers and even the FPCCI that resulted in eradicating almost all the fake/bogus trade bodies whereas around 90 trade associations and 35 Chambers of Commerce were found legal when TOO-2007 was implemented."

Siraj Teli said that it was a blessing in disguise as BMG candidates made a lot of efforts, went from pillar to post, felt the pain and struggled really hard to achieve this position. "They must've realized now that this seat was not for free, it requires a lot of hard work and determination. Ultimately, the election went in our favor as it reenergized all BMGIANs, further strengthened the Group and clearly indicated BMG's improved vote bank.

He expressed gratitude to general body members and all those individuals who came out to get counted in KCCl's election, which can be gauged from the fact that BMG can-

"However, TOO-2007 was sabotaged in between 2007 to 2013 and it was abolished and replaced with TOO-2013 which once again provided bogus trade bodies an opportunity to get registered by paying a mere amount of three to four hundred thousand only. To deal with this serious issue, KCCI approached the then Commerce Minister Amin Fahim and Chairman of National Assembly's Standing Committee on Commerce Khurram Dastgir Khan, who later on became the Commerce Minister during PML-N's era. Although assurances were given from time to time but not a single step was taken by anyone to deal with this issue therefore, the newly elected Office Bearers must take up this issue", he added.

Referring to numerous plans highlighted by Juriaid Makda for his tenure as President, Siraj Teli gave go ahead to the newly elected Office Bearers for all their future endeavors but advised them to extensively discuss these programs with the Managing Committee with a view to encourage debate. besides bringing their plans to the notice of leadership.

Commenting on the Charter of Economy, Siraj Teli said that the Karachi Chamber was the first institution to float the concept of 'Charter of Economy' during PPP tenure at a meeting attended by all Chambers of Commerce of the country. After listening to KCCI's idea, President Zardari directed Saleem Mandviwalla to formulate the proposed Charter of Economy but unfortunately no progress took place. Every government assures to come up with a Charter of Economy and recently Shahbaz Sharif also floated the same idea which was welcomed by Asad Umer.

He advised the office bearers to raise voice for Charter of Economy and approach Saleem Mandviwalla for assistance. Under the Charter of Economy, numerous economic policies should be identified and all of them must not be disturbed

and kept intact in all types of circumstances.

Commenting on KCCI's election, he said, "The election results were the outcome of our Public Service which foiled all conspiracies hatched against BMG. They thought that they will easily defeat us in the election the way they defeat their opponents in FPCCI's election in which more than half of fake/bogus associations are in their pockets which are used to manipulate FPCCI election but the business and industrial community totally rejected all these elements in KCCI's Election."

election, which can be gauged from the fact that BIVIO candidates secured double votes against their opponents. "A huge margin of almost 1500 votes was recorded in between our last and their top performing candidate which is only due to overwhelming support of KCCI's General Body and all those who came out to get counted and endorse BMG's services since last 20 years", he said, adding that largest turnout of 58 percent was witnessed from Jodia Bazaar whereas voters' turnout from other markets in different localities was in range of 35 to 40 percent.

He further advised the newly elected Office Bearers and Managing Committee members to maintain discipline which is the first step on the road to success. Chairman BMG also congratulated retiring Office Bearers Muffasar Atta Malik, Abdul Basit Abdul Razzak and Rehan Hanif who maintained the tradition of performing better as compared to previous Office Bearers and successfully completed their tenure, besides expecting the same kind of deliverance from the new incumbents under BMG's policy of Public Service.

Vice Chairman BMG & Former President KCCl Zubair Motiwala, while referring to KCCI's election held after a lapse of 11 years, said that the overwhelming results in favor of BMG candidates clearly indicated that majority of the business community has accepted and appreciates the leadership of Siraj Kassam Teli. "It is not just the victory of BMG but the victory of all members of the business community of Karachi with deserved to be appreciated", he added.

He pointed out that Karachi contributes a huge share of more than 65 percent revenue to the national exchequer and according to recent figures, this city contributes around 91 percent revenue to the provincial kitty. "Unfortunately, city government hardly receives Rs8 billion which has to be enhanced", he stressed and advised the Office Bearers to fight for the rights of Karachi and strongly demand at least half of the said 91 percent in order to improve the city's dilapidated infrastructure.

Vice Chairman BMG & Former President KCCI Haroon Farooki congratulated all BMGIANs and General Body Members on their victory in KCCI's Election which became possible because of the hard work, dedication, sincerity and truthfulness of all BMGIANs.

Appreciating the agenda items for 2018-19 formulated by the newly elected President, he advised Junaid Makda to come up with a detailed strategy on how prioritize these irritants as all these issues and irritants cannot be simultaneously taken up.

He stressed that the government will have to be urged to stop and come out of adhocism and devise legislations. It is heartening to note that Finance Minister Asad Umer and PM's Advisor Razzak Dawood have recently announced that all policies including Taxation, Tariff, Industrial, Trade, Textile and other policies will be implemented for a period of 3 to 5 years.

Vice Chairman BMG & Former President KCCI Anjum Nisar paid glowing tribute to outgoing Office Bearers for smoothly carrying out KCCI's affairs in a professional man-

ner under the presidency of MuffasarAtta Malik.

Keeping in view the determination exhibited by Junaid Esmail Makda from time to time, he was fairly optimistic that Junaid Makda will certainly make extraordinary efforts to resolve the issues being faced by the business and industrial community.

The newly elected President KCCI Junaid Esmail Makda, in his speech, highlighted detailed agenda for his tenure as President and assured to make all out efforts to get numerous issues resolved which were being suffered by the business

and industrial community since long.

He pointed out that they will strive really hard to exert pressure on the government so that Charter of Economy could be introduced and in letter and spirit. "We will also pay special attention to FBR related taxation issues, particularly those which were brought to our notice by KCCI members during our election campaign. The SRO culture at FBR has to be stopped and FBR officials and its Chairman should not be authorized to issue any SRO.

He demanded from Chief Minister Murad Ali Shah to fulfil his commitment pertaining to giving representation to KCCI in SRB through legislation. "We also will highlight the high cost of doing business and infrastructure problems of Karachi, besides focusing on exploring ways and means to enhance regional trade and suggest measures for improving the existing FTAs and PTAs with friendly countries,", he said adding that more of such trade agreements with countries around the world were required in order to deal with descending exports.

He was of the opinion that as judiciary, national and executive security are three pillars, the business community was the fourth pillar therefore, the federal and provincial governments must legislate to explain KCCI's role and allocate seats in Senate, National and Provincial Assemblies for the

business community.

"We will also bring reforms at KCCI, strive to take over the management control of KCCI's hospital, establish the firstever University of Karachi Chamber of Commerce &

Industry and revitalize more than 100 international MoUs inked by KCCI", he said, "We will also raise strong voice against rising street crimes all over the city."

Retiring President KCCI Muffasar Atta Malik highlighted major achievements during his tenure and appreciated the leadership for providing him the opportunity to serve business and industrial community from KCCI's platform.

## IMF team for making non-filers accountable

ISLAMABAD: An International Monetary Fund (IMF) delegation on Monday held a meeting with the Federal Board of Revenue (FBR) and Ministry of Finance officials.

During the third round of talks, the FBR and Ministry of Finance officials briefed the visiting delegation over details regarding tax revenues.

The IMF asked the officers to ensure consolidated measures to > P 4 Col 3

WB, FBR agree to increase tax to GDP ratio

RECORDER REPORT

ISLAMABAD: The World Bank (WB) and Federal Board of Revenue (FBR) Monday agreed to increase tax to GDP ratio from current level of 10 percent to 15 percent under > P 4 Col 3

## WB, FBR agree to increase tax to GDP ratio

> from page 1 medium-term revenue strategy from 2018-19 to 2020-21, it has been learnt.

Sources said that the representatives of WB and FBR held a conference here to work out modalities for devising medium-term revenue strategy over the next three years.

It was pointed out among tax experts of both sides that the taxpayers had to deal with five tax machineries in Pakistan including the FBR and four provincial revenue authorities that wastes a jot of time of taxpayers.

It was agreed upon between the both sides that FBR's Policy Board should be activated with the participation of provincial revenue authorities to harmonize tax policy among the center and provinces.

Sources said the harmonization among income tax and sales tax is dire need of the hour for using each other data to expand the tax base and revenue collection up to the real potential of the country. Although Inland Revenue System (IRS) deals with both income tax and sales tax, yet using data for expanding the base and collection still needs to be done for making FBR an effective revenue collection agency.

The FBR's Policy Board already exists but it was never allowed to play its important role for policy formulation on taxation front. There was consensus among the stakeholders for activation of this Policy Board whereby provinces will be invited on special invitation to harmonize fiscal policies for whole Pakistan.

Sources said the government intended to utilize information technology for the purpose of expanding the narrowed tax base in months and years ahead.

## IMF team for making non-filers accountable

> from page 1 make all non-filers accountable under tax net.

The Fund had termed current economic condition 'unsatisfactory', during the previous two rounds of talks.

State Bank of Pakistan (SBP) governor and Federal Board of Revenue (FBR) chairman will also hold separate meetings with IMF's delegation.

Talks between two sides will continue till October 4.—INP

## Petroleum prices: PL goes high, GST down

RECORDER REPORT KARACHI: The government, for the second month

running, has decided to keep the petroleum products' prices unchanged for October 2018. The decision came despite international oil prices touching a 45-month high, with Brent having crossed \$80/bbl. Recall that OGRA had recom-

mended an increase of > P 4 Col 3

## Petroleum prices: PL goes high, GST down

> from page 1 Rs4/litre in both Petrol and High Speed Diesel (HSD) prices for October 2018.

The government has taken a hit on its revenues by not passing on the impact of increased ex-refinery prices of petroleum products. The revised General Sales Tax (GST) rates for petroleum products, now stand at multiyear low, as per the FBR SRO No. 1167(I)/2018. The GST on Petrol has been reduced from 9.5 percent in September 1018, to 4.5 percent. The same on HSD has been slashed from 22 percent in September 2018 to17.5 percent. The GST on Kerosene has come down to 1 percent from earlier 6 percent, and that on Light Diesel Oil is now 0 percent.

On the other hand, the Petroleum Levy (PL) has been slightly revised upwards, from Rs9.68/litre to Rs9.99/litre in case of Petrol. It is pertinent to note that the revenue collected in lieu of Petroleum Levy is not part of the divisible pool to be shared with the provinces, which gives the government more room in times of such fiscal crunch.

Should the oil prices remain on the higher side, and the government continues to find it difficult to pass on the impact to the end user, the axe would likely continue to fall on the GST, which would mean a smaller pie to be shared with the provinces. Also recall that the previous government, in the last budget, had raised the maximum limit of Petroleum Levy on Petrol and HSD from Rs10/litre and Rs8/litre respectively, to Rs30/litre.

The Supplementary Bill 2018 has not changed that, although the Finance Minister in his mini-budget speech had announced to revise the budgeted collection on account of PL from Rs300 billion to Rs189 billion. This goes on to tell that, in times of low international oil prices, the government can use the PL to go way beyond Rs10/litre, without altering the GST.

**CURRENCY** 

# Rupee slips 1.34 percent amid devaluation fears

By Erum Zaldi

KARACHI: Rupee weakened 1.34 percent to close at a low of 128/dollar in the open market despite ongoing talks between the government and International Monetary Fund (IMF) aimed at securing a potential financing deal for external funding and to bridge widening current-account and fiscal deficits, dealers said.

They added that the rupee fell sharply on panic dollar buying following unconfirmed reports about devaluation of currency to

win praise from the IMF.

The rupee closed at 126.30 on Friday. The currency was stable

at 125.50/60 at the close of trade on Thursday.

However, volatility kicked in since Friday on speculations fuelled by media reports that the government had agreed with the IMF team to devalue the currency to 130/135 in the period to come.

Some dealers quoted the rupee trading as low as 128.50 to the

"There was a clear sign of heavy dollar buying. That created shortage of dollars in the kerb market," said Zafar Paracha, the general secretary at Exchange Companies Association of Pakistan.

"The uncertainty about the IMF bailout and the future direction of the exchange rate encouraged investors to rush to purchase the greenback."

The rupee closed flat at 124.25 against the dollar in the interbank market.

The IMF mission is currently visiting Pakistan, holding a third round of talks with the government to discuss the economic chal-

lenges being faced by the country.

Finance Minister Asad Umar had clarified that the government had no plan to approach with the IMF to seek a new bailout. However, The United Nations Conference on Trade and Development reported that the government might opt for a bailout package from the IMF.

The SBP's net liquid forex reserves have declined to \$9.0 billion as of September 19 compared with \$9.8 billion at the end of FY18.

Malik Bostan, president, Forex Association of Pakistan, said the money changers had an urgent meeting with Arshad Bhatti, director, foreign exchange department at the central bank to discuss the renewed pressure on the currency.

"We have recommended a set of steps with the SBP's official aimed at stemming a sharp decline in the rupee in the open market," Bostan told The News. "We hope the rupee will stabilise if some of the measures as discussed with the SBP's official get implemented by the government and the central bank."

Bostan suggested the government to take measures to curb cross-border dollar smuggling to stop rupee from falling further.

Market watchers said the indecisiveness of the PTI government about the IMF new programme has spooked investors in the forex market.

Some traders still believe the rupee to face a new round of devaluation in the interbank market by the government to make a final push to secure the new IMF loan within days or weeks as it seeks to overhaul the ailing economy. THE NEWS

#### Ali elected as new PLGMEA chairman

#### By our correspondent

KARACHI: Syed Shujaat Ali has been unanimously elected as the chairman of the Pakistan Leather Garments Manufacturers and Exporters Association (PLGMEA) Central for the year 2018/19, a statement said on Monday.

The election was held in the first meeting of the newlyelected 17th Central Executive Board held in PLGMEA offices in Karachi and Sialkot, it added. The board members applauded

the services of outgoing chairman Hassan Ali Bhatti.

The board also approved the nomination of Sh Attique-ur-Rehman Ratra as senior vice chairman and Shahid Malik as vice chairman of the association from Northern and Southern Zones, respectively.

### PCMA elects office-bearers

#### By our correspondent

LAHORE: Taimur Dawood, Paisal Akhtar and Moazzam Rasheed have been elected unopposed as the chairman, senior vice chairman and vice chairman of the Pakistan Chemical Manufacturers Association (PCMA) for the year 2018/19, a statement said on Monday. It was announced at the third annual general meeting, it added. The new Executive Committee members included Moazzam Rasheed, Pervaiz Khan, Zafar Qidwai, Faisal Akhtar, Muhammad Anees Arain, Harris Aizad Sheikh, Jawad Amin and Khalid Qazi. Zubair F Tufail, outgoing chairman of PCMA felicitated the newly-elected office-bearers and the executive committee members.

### FWBL offers solar panels for women

#### **News Desk**

KARACHI: Tahira Raza, President and CEO of First Women Bank Limited (FWBL) has said that the installation of solar panels is a cheap and self-sufficient clean renewable process, which produces no harmful emanation to hurt the environment.

Addressing a session, organised to create awareness about the solar energy concepts benefits and products, she said the importance of solar energy is sure to play a big role in helping people socially and economically and creating jobs and research. Pakistan's economy is currently facing the dual challenge of energy shortage and climate change, she said, adding that inadequate supply of energy has severely impacted the growth of industries / businesses and the welfare of the public, in general. First Women Bank is also offering solar products to meet the demand of commercial and personal users, including men, women and transgenders, but the facility is available to women and transgender customers at more subsidised rates, she added.
